### **DETAILED ACTION**

The amendment filed on 01/03/2012 has been entered.

#### ***Allowable Subject Matter***

Claims 1, 5-8, 10 and 11 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest a display apparatus in which a pixel is driven by using a thin film transistor unit including an organic semiconductor material, comprising: a substrate; a thin film transistor unit located above the substrate; a display element unit laminated on the thin film transistor unit; a pixel electrode formed on a substrate side of the display element unit and functioning as the pixel electrode of the display element unit and a drain electrode of the thin film transistor unit; a source electrode of the thin film transistor unit, which is formed so as to be opposed to the pixel electrode in a thickness direction; a conductive film formed outside of the display element and suppressing permeation of gas and moisture; and a source scanning line connected to the source electrode, wherein the thin film transistor unit comprises a semiconductor layer; the semiconductor layer includes the organic semiconductor material; the semiconductor layer is located between the pixel electrode and the source electrode; and when seen from the conductive film side, the pixel electrode has an area larger than that of the source electrode, and an edge of the

Art Unit: 2889

source electrode is located inside of the pixel electrode. Claims 5-8, 10 and 11 are allowed due to their dependency upon claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
